## Editorial

by Cindy Preston  
COMMUNICATION

The younger generation is constantly being criticized for its wild ideas. People say that these new ideas are absolutely ridiculous. They contend that the things which the teen-agers nowadays are immoral, outlandish and stupid. "Today, high school and college students don't know what they're doing. What is the world coming to? The more education these kids get, the less they know about how to use it."

On behalf of the younger generation, let us examine and investigate the situation further. Are these new ideas really new? Are they completely new philosophies or could it be that other men have thought of these things, but never dared say or do anything about them? I think the latter is the true case. The teenager must be given the credit for his courage to stand up for what he believes is right and to protest that which he does not believe in. However, it is his youth which makes him sometimes go about things in the wrong way. Wisdom comes with age. The difference between the young and the old is that the young possess education while the old possess wisdom. The two terms imply two different meanings. Education is obtained from books. Wisdom is obtained from actual experience. Thus it is that the teen-ager can not be entirely blamed for his actions. His lack of wisdom is something for which he cannot compensate.

If only the young and old could communicate with each other and could transfer their knowledge. What a perfect world we could have!

## Senior Interview

by Laurie Collins

This week's senior has been Ruth Ellen Green for only three years but it wouldn't seem just right without her. You guessed it, Ruth Ellen Green, "Ruthie", the daughter of Mr. and Mrs. Harley Green, moved to Andover after her freshman year at Wellsville. While at school there, she participated in the Latin Club for one year, the Junior Choir for two years, and in dramatics for three years.

At Andover, Ruth has been on the girls' soccer and basketball teams and has won several awards in gymnastic competition. Her other activities include Red Cross one year; F.H.A., two years; and G.A.A., three years. Ruth played the part of "Babs" in the Junior Play and recently portrayed Dorothy in the Senior Play. Ruth also had the honor of reigning as Queen of the Fourth of July celebration.

Upon graduating from high school Ruth plans to enter the "bliss" of married life which sounds like a pretty good idea. We would like to wish her the best of luck, now and in the years to come.

## Cafeteria Menu

Week of January 19 - 23

MONDAY - Barbecue and Bun  
Buttered Vegetables, Raisin Rice  
Custard, Milk.

TUESDAY - Sweet Potatoes,  
Oven Fried Chicken, Buttered

## Roving Reporter

by Gregg Shellman

This week I thought it would be adequate to ask a few of the men in our school, "what did Santa forget to bring you?" Here are the answers I received:

Fred Baker - My two front teeth.  
Tom Polmateer - my glasses  
John Fanton - my new Charger  
Dan Grant - Box of Band-Aids  
Dennis Price - my Purple Heart  
Alex Burr - A can of hair straightener  
Stub Fuller - Brakes

REGULAR CLASSES

P. M.

REGULAR CLASSES

7th and 8th Grade Exploratory subject areas will be tested on Thursday, January 22, and Friday January 23, during scheduled class periods.

## Purple And White

by Jim Howland

The Panthers have now won four consecutive games. With the first league game "under the belt" Andover looks forward to a game with Alfred-Almond Tuesday night.

The win Friday night (January 9) was a double triumph for Andover. The J. V.'s won 57 - 35. The Varsity also won handily 70 - 38.

The Panthers will play Bolivar this Friday.

## Who Are They?

by Candy Congelli

This week's mystery person is a bubbly, witty, cute senior. She has short dark hair, dark eyes, and sometimes wears her glasses.

Her major is business, but she loves to draw and ride Ski-Doo's. This senior comes from a large family and lives in the country.

Well, that's enough clues, so get your brains a-grinding and if you can't figure it out, spend a dime for next week's paper. The answer will be in it.

## Sophomore Prophecy

by Brenda Preston

I've looked at some of the sophomore students and have put my imagination to work. Here, in my opinion, is the future of some of these people.

Can you imagine Tom Wallace an exact duplicate of his father? How about Jeanne Atwell marrying a wealthy man and living in California, Jim?

Jim MacMichael will become a prize fighter.

Dennis Herr might become president of Stokely Inc., if he's lucky.

Could Barb Kemp become a carpenter?

Dawn Burrows will become a pilot without a plane.

Larry Nevol will become a brain surgeon.

Maureen Shellman will become an interior decorator.

Could you imagine Jesse Grossman as "Superman"?

Charlene McCormick will become a model.

The idea of parachuting men to forest fires in inaccessible back-country areas was conceived in Utah in 1931 by forester T. V. Pierson.

You get  
a little over \$4.00  
for every \$3.00  
you invest.

And that's nothing  
to sneeze at.

Some people have  
misconceptions about  
Savings Bonds.

They think they're a  
nice, safe investment  
but they don't really  
give much in the way  
of returns.

Look at it this way.  
U.S. Savings Bonds  
now pay 4 1/4% interest  
when held to  
maturity - a little over  
\$4.00 back for every  
\$3.00 you invest, in  
just seven years.

On top of that, the  
interest is exempt from  
state or local income  
tax, and Federal tax  
may be deferred until

you cash the Bonds.  
That can make a real  
difference in what you  
actually get back on  
your investment.

Also, buying Series E  
Bonds lets you  
purchase higher interest  
Freedom Shares  
in combination -  
and they pay a full  
5% when held to  
maturity of four and  
one-half years.

Any way you look  
at it, Savings Bonds  
are a good investment.

And you know some-  
thing?

They always will be.

American Cancer Society

3/4  
might be  
saved

Colon-rectum cancer strikes  
73,000 Americans each year.  
Three-quarters might be  
saved by early diagnosis and  
proper treatment.
