World Day Of Prayer Friday March 6th

Andover, March 6, 1970: Church Women United will join millions of people on March 6, 1970, in a bond of prayer spanning six continents. Prayers will be offered in seventy-five languages and a thousand dialects. World Day of Prayer is sponsored in the United States by Church Women United and will be celebrated in 25,000 communities.

Andover Presbyterian Church Women United invite all to join this worldwide fellowship at 7:30 a. m. All the churches in Andover will be participating in the celebration.

Miss Margaret Wood is in charge of the program and Mrs. Hazel Furgett is the organist.

Rev. Gerald Wolter will be the soloist and Rev. Alan Minarcik will give a special multi-media presentation on "Take Courage."

This annual chain of prayer links the first voice at dawn in the tropical Tongas, just west of the International Date Line, with millions of others as it passes throughout the Day across oceans and continents. By nightfall, its message of hope will have followed the sun's arc until the last prayers are said in units of Church Women United in Hawaii and the islands of Alaska.

The theme, "Take Courage" — "Moet Huden," "Stech Fest" "Esfuerzate" — was chosen and made relevant by an International Committee headed by Miss Gurdun Diestel of Germany. The program was developed as a housewife from Egypt, a social worker from Guyana, a church worker from the Philippines, and a woman from the U.S.A., discovered a common bond of worship and witness.

The challenge of the 70's across the continents is to bear witness to one's convictions when morals and decadence are at a premium. In India, Kenya, or the U.S.A., it takes courage to be open to the unknown in the 70's, which are

bringing so many changes to families the world over. World Day of Prayer will be reflecting courage for responsible action.

World Day of Prayer provides an occasion for participating in a nationwide offering committed to helping others "take courage." This year's emphases are: new religious educational materials for Latin Americans and Spanish-speaking families in this country; support of a Secretary for Women's Work of the Near East Christian Council; the dispossessed Spanish migrant and Indian American Communities. These are part of an Intercontinental Mission, a fund through which Church Women United expresses its concern for others in concrete terms including grants for Christian literature on six continents and grants to Christian colleges in Asia and

Make Your Own 'Sunscope' for March 7 Eclipse

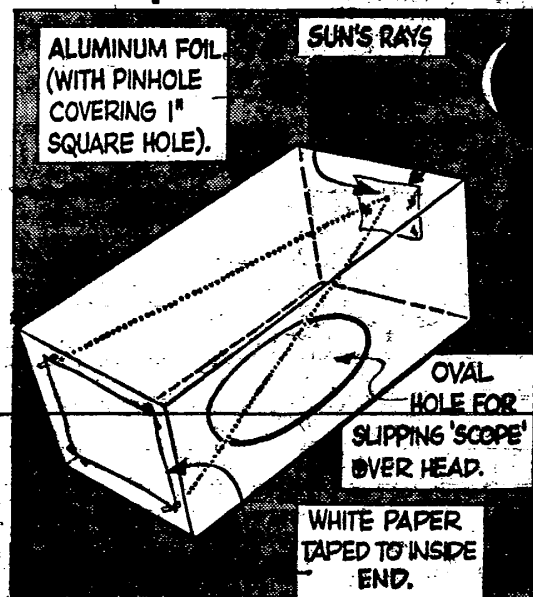

If you plan to watch the eclipse of the sun which will occur on Saturday, March 7, avoid looking directly at the sun! The New York State Optometric Association warns that serious and permanent damage to your eyes can result. The sun's rays can burn or coagulate a spot on the eye's retina causing an area to become permanently blind.

However, you might not want to miss watching this nearly-total eclipse since another of its magnitude will not be visible in the New York State area for the next 174 years. The Optometric Association suggests that you can watch it safely by making and using a

"Sunscope" for viewing the eclipse. Here's how:

1. Fasten a piece of white paper over the inside of one of the small ends of an old grocery carton, measuring about 1 by 2 by 3 feet.

2. Cut a one-inch-square hole in the opposite small end and cover the hole with aluminum foil.
3. Make a pinhole in the foil.
4. Cut a hole somewhat larger than your head in the bottom of the box, so that you can slip the box over your head.

5. Seal all light leaks with black tape or paper.

6. To use the "sunscope" for viewing, stand with your back to

the sun, the box over your head, and look at the image projected through the pinhole onto the white paper.

7. Do not look at the sun directly through the pinhole—Look at the image projected on the white paper. Incidentally, March 1 to March 7 is National Save Your Vision Week. The theme is "Life Is Worth Seeing—Your Vision Is Worth Care."
