Use Separate Checks For Each Federal Tax!

Anyone planning to pay two Federal taxes at the same time should use separate checks or money orders to avoid possible billing errors, John E. Foley, District Director, Internal Revenue Service, Buffalo, said today.

Under the IRS system, which has a different processing cycle for each type of return, the entire payment could be credited to one tax and a bill issued for the other.

Mr. Foley said, "If one check or money order covers a 1970 estimated tax payment and a 1969 tax balance due, for example, when the returns are separated for processing, the entire payment might be credited to one tax, leaving the other tax unpaid." In such a situation, one tax would be overpaid and a refund issued, while on the other tax a bill would be sent.

Taxpayers should put their Social Security number on all checks or money orders sent to IRS, to make sure the payment is properly credited. Business taxpayers should put their Employer Identification number on the check.

New Baking Spud From Ag College Set To Hit Markets

ITHACA — A new baking potato will appear in many supermarkets across New York State for the first time since it went into seed production a few years ago.

Initially introduced in limited quantities through supermarkets in Central New York, the new spud, named Bake-King, was developed by plant scientists at the N.Y. State College of Agriculture at Cornell University.

Specifically bred for baking purposes, it is extremely mealy and fluffy — two essential qualities in any baking potato.

Because of its meateness, Bake-King is superior to Russet Burbank, a leading baking variety grown extensively throughout the United States.

Released from the College for commercial seed production in 1967, Bake-King seed potatoes are available in sufficient quantities for planting this season, according to Prof. Edward D. Jones at the College of Agriculture.

titles for planting this season, according to Prof. Edward D. Jones at the College of Agriculture.

Prof. Jones, who oversees foundation potato seed production at the College's Uihlein farm near Lake Placid, reports that the seed potato acreage entered for certification in 1969 totaled 41 acres, a fivefold increase over the 1968 acreage.

A product of more than 10 years of research and field trials, Bake-King was developed by Prof. Robert L. Plaisted, head of the breeding department; and Prof. L. C. Peterson, plant pathologist.

Bake-King is a cross between Merrimack and Green Mountain. Green Mountain dominated New York's potato production for more than half a century from 1878 through the late 1920's.

The new Cornell variety produces smooth and uniform tubers with shallow eyes and white flesh. Among other traits, Bake-King is essentially free from such tuber defects as hollow heart and growth cracks.

Use Money Orders Or Checks To Pay Taxes

Use a check or money order to pay your 1969 Federal Income tax John E. Foley, District Director, Internal Revenue Service, Buffalo, said today.

Unlike a cash payment, a check or money order gives you a record of payment in case of loss of misdelivery.

Mr. Foley pointed out that payment can be stopped on a misplaced check or money order and a new payment made.

Checks or money orders should be made payable to the Internal Revenue Service. Write your Social Security number on the check or money order and state the exact purpose of the payment to help assure your payment is properly credited.
