Why we see  
more of you

■ Surveys will prove most anything, we guess. We just read one that said people visit the neighborhood pharmacy more than any other store.

Well, we can believe that . . . we see our friends lots more often than, say, the folks at the shoe store. That's because of the variety of products we sell and the extra hours we're open.

And, of course, in time of illness we're your source of medication . . . prepared to the highest professional standards.
