George Angello is bringing legal action against Steuben County Board of Cooperative Services for a teaching position which is in process of being heard in Supreme Court. Justice Alton J. Wightman will direct a hearing on the issue in court January 22 after he heard preliminary arguments Monday.

Mr. Angello, a long-time business teacher at Greenwood Central School, claims BOCES took over the school business program and by a new law he should become a BOCES teacher at the Wildwood Campus at Hornell. He claims he has longer tenure than Mrs. Dusenbury who was hired by BOCES. Key to the issue is whether BOCES took over the business courses formerly taught in Greenwood Central School or if the school because of budget reasons cut back the business teaching post from full time to half time.

**DON'T DO AS WE DO! — DO AS WE SAY!**

During the past summer after the stream down by the Silk Mill on Rochambeau Ave., had been cleaned out we were called into the Village Office and were told that: "There was a branch in the creek and that we had better get it out before it could cause trouble". And, so it was done!

Now, and since the flood in December, a tree has been across East Valley Creek by the Davis Home on Rochambeau Ave., and would certainly cause a great deal more trouble than a mere branch. It could easily build up a gravel bar, catch more debris and maybe

make a dam — and possibly even take the new garage away that is already partially undermined. If we have more high flood water! JUST WHAT IS THE DIFFERENCE? Same Village! Same Street! BUT NOTHING HAS BEEN DONE!

943, "Employer's Annual Tax Return for Agricultural Employees," he added.

For tax purposes, a farm employer includes anyone who pays workers to perform agricultural labor on his behalf or for someone else. A "crew leader" is an employer under this definition, he added.

The 1972 Social Security tax rate is 10.4 percent of the first \$9,000 of taxable wages paid a farm employee. The farmer and the employee each pay half the tax.

Farmers must give a W-2 wage and tax statement to every worker listed on their Form 943 from whom they withheld both income and Social Security taxes. The IRS prefers that farmers also use a W-2 for those employees listed on Form 943 from whom they withheld only Social Security tax. However, they may use Form SS-14 or a written statement containing the Social Security wage and tax information appearing on Form W-2 or SS-14.
