

News That's Print To Fit

Well Folks, would you believe that at noon today, Jan. 18, 1973, the thermometer is standing at an incredible 55 degrees? And, as we recall, 16 years ago it was down to 32 below zero. Hows that for instant recall? Actually, we can't take all that credit as we have that date etched in our memory. Yep, it's our Wedding Anniversary.

Meanwhile, back on the home range, according to a recent report, "BOB" (Bucket of Bolts) was seen cantering towards Wellsville at 11:50 p. m. Saturday evening, and later on, was seen grazing in the vicinity of the "Coffee Pot" around 12:30.

However, for the last few nights, we have seen "BOB" on the "Home Range" more than we have for the entire two weeks of the New Year. Suppose some-one remembered that Village Elections are coming up this Spring?

To set the Record Straight due to some "News" that wasn't factual, the Andover Lions Club did NOT extend a formal invitation to the Maple Producers of Allegany & Steuben Counties for a Maple Festival this spring.

The Facts Ma'am are: that a Lions Club Committee headed by their President asked the Maple Producers what they thought of the idea, and asked them if they would support the idea and plan.

Personally speaking we believe that the idea was very favorably received and a Committee of Maple Producers has been appointed to meet with the Lions Club Committee in the near future. If the "green light" is given, an announcement will be made next week — and a "crash" program will have to be initiated.

Something like this could give Maple Producers a "shot in the arm" in this area and could be a boon to our Community and entire area.

Aged meat cooks slightly faster than unaged meat.

—Mrs. Richard West of Alfred called on her aunt and uncle, Mr. and Mrs. R. E. Spicer, Thursday.
