### PHOTOGRAPHER "DICK" WITTIE TO COVER FESTIVAL PICTORIALLY

Richard P. Wittie, local Professional Photographer, has set up a window display for the Maple Festival which will show continuous colored slides, automatically, for periods of 1½ to 2 hours. These slides are from his collection, taken from several years of the "Pageant of Steam" at Canandaigua, as well as at Alexander, N.Y., and will also show antique cars and antique steam engines.

The display also has a 4x8 foot collection of photographs of Maple Syrup Production and "Sugar Shacks."

"Dick" tells us that he will be taking pictures of the parade as well as other high-lights during the Festival. If anyone wants any particular shots either in black and white or color, of certain displays or other features — contact him and make the necessary arrangements.
