Dear Jean,

I enjoy my Andover News, am sorry to hear of old friends passing away. The write-up about the Flag was wonderful, it brought tears to our eyes.

I sent five sons to the Service and my son, Edward was a Sergeant Fran, a Captain and they all made ratings.

"Edward said, "Mother if you do not care I would like to cut it out and keep it".

I remember back when at home we never missed going to the Decoration Day Parade, every child very proudly carried a tiny Flag.

Sincerely
Mrs. George McAndrew

News That's Print To Fit

Well Folks, here we are back at the same old stand again after returning from what you might call the "Shadow", "Fear, Uncertainty, the Unknown" — call it what you will.

At any rate, it sure seems good to be back home and, while the news wasn't all "good news" — it was far from the "bad news" that we had dreaded. After we have the stitches removed from our neck this Friday, we should be given the surgical and medical reports — and then we will know what the up-to-date "score" is.

However, no matter what the final outcome may be, we are thankful that the Doctors in our own local Medical Center discovered one of our problems so promptly and that it was able to be checked out so efficiently at the Robert Packer Hospital at Sayre in such a short time. They certainly have a large group of dedicated personnel gathered together to staff their modernly equipped Medical Complex — for which we are very thankful.

Now for the latest on the "Home Front". One of the most important things for Village and Town, of Andover Residents is the forthcoming Republican Primaries next Monday, June 4th.

With our current body of County Legislators apparently trying to pull a "fast one" on we Allegany County Taxpayers by telling us how badly we need a new County Jail (which is true) — and then turning around and planning on building a new County Office Building (which may not even include the badly needed Jail) — at a cost estimated anywhere from 1 to 5 Million Dollars — WOW!

It is obvious that we need some one who will fight this type of "Grandiose Scheme", to keep we poor Taxpayers from going completely "broke".

"Jerry" McCartney from Andover, is one of the four candidates that is entered in the Primary race for Legislator to represent District 5 (which includes Andover), and has already stated his opposition to the "Taj Mahal" concept of a County Office Building. He has stated that he believes that the plans should call for a new County Jail with adequate office space on a modest concept; that a realistic cost estimate should be given to the County Voters — and then give them a chance to vote on the project at a Public Referendum!

According to our beliefs, this is the only sensible approach — and we are behind it 100%!

Thus — for all of you Republican Voters that are eligible to vote in next Monday's Primary — it is up to YOU to decide if you want a County Legislator that will truly represent Andover and is interested in saving we Taxpayers a "bundle of money"; or, else go along with the present crew that apparently doesn't care what we Voters have to say — or what we think!

Let's all get out and VOTE at the Primaries — and show what we really think and believe in.

And, As far as the other candidates are concerned, we haven't heard of any of them coming out with a public statement in opposition to the "Grandiose Office Building" — and, as we recall, one of is even Chairman of the Committee that hasn't even been able to come up with any accurate estimate of the true cost of the project!
