

—Rev. and Mrs. Ray Albaugh and daughter, Lori, visited their son and brother, Mr. and Mrs. Deane Albaugh at Oneida, N. Y., October 21 and 22.

—Mrs. Arnold Remaley of Greenfield, Mass., was a Sunday caller at the home of Mr. and Mrs. R. E. Spicer.

—Mrs. Kay Cooper of Hamilton, Ant. and Mrs. Nettie Cooper of Hagersville, Ont., were recent guests of Mr. and Mrs. Charles Caple.

—Mr. and Mrs. Clifford Bixby spent Saturday as guests of their son, Mr. and Mrs. William Bixby and son at Mansfield, Pa.

—Dr. Richard Kessler of Woodcliff Lake, N. J., was an overnight guest of his parents, Mr. and Mrs. James H. Kessler the forepart of last week.

—Mr. and Mrs. Robert E. Spicer were Sunday dinner guests at the home of their son, Mr. and Mrs. Robert C. Spicer of Wellsville.

—Mr. and Mrs. Al Bassamier of Downers Grove, Ill., were last week guests at the home of Mr. and Mrs. Charles Caple.

—Mr. and Mrs. James Yannie and daughter of Perkinsville, spent Sunday with his mother, Mrs. Emilio Yannie.

—Mrs. Alfred Whitford of Watsonstown, Pa., is a guest at the home of her niece and family, Mr. and Mrs. Charles Dougherty, and also visited at the home of her cousins, Mr. and Mrs. Kenneth Vars. She plans to return to her home Sunday.

—Mr. and Mrs. Russell Connor of Watford, Ont., were last week guests of Mr. and Mrs. Charles Caple and family.

—Mrs. Emilio Yannie has received word that her son and wife, Mr. and Mrs. Emilio Yannie of Bath, left Wednesday from the Rochester Airport enroute to California where they will visit his brother and wife, Mr. and Mrs. Joseph Yannie.

—Miss Agnes Taylor is visiting at the home of her cousin, Miss Helen Taylor in Canisteo, during the week-end.

—Mrs. Dorian Healk of Panama arrived Friday to spend a few days with her sister, Mrs. John C. Lever.

—Miss Edna Caple of Buffalo spent from Thursday to Saturday visiting at the home of her brother, Mr. and Mrs. Charles Caple and family.

—Mr. and Mrs. Maxon Crandall of Darien, Conn., were Thursday afternoon guests at the home of their aunt and uncle, Mr. and Mrs. R. E. Spicer.

—Sunday callers at the home of Mr. and Mrs. Earl Schoonover were: Mr. and Mrs. Clarence Resue of Troupsburg; Mr. and Mrs. Elwin Schoonover and family of Leicester; and Mr. and Mrs. Richard Heselton.

4-H Club News

The Elm Valley Harvesters 4-H Club met on October 16, 1973 at the Ronald Freeman home. We held election of officers with the following persons being elected:

- Eric Wilson, President
- Ralph Johannes, Vice-President
- Ricky Freeman, Secretary
- Terry Freeman, Treasurer
- James Perkins, News Reporter
- Zelda Freeman, Song Leader
- Yoette Freeman, Cheerleader

Ralph Johannes was accepted as a new member. All of the members present received 4-H Pins for completed project records. Zelda and Yvonne Freeman received special awards for canning; and Ricky Freeman received a special award for photography.

We decided to sell 1974 Calendar Towels and two-year pocket calendars for \$1.50 and \$1.00 respectively. After the meeting we choose our projects for the coming year.

Our next meeting will be on November 20, 1973 at 7 p. m., at the Ronald Freeman home. The programs for the next meeting are a demonstration on "How to Make Butter" by June Freeman for the girls; and a talk on "Dairy Cattle" by Ricky Freeman and Ralph Johannes for the boys.

James Perkins, News Reporter

Briggs and Abbey United In Marriage

Mrs. Beatrice Briggs of Elm Valley and Mr. Harry Abbey of Bushnell, Florida were united in a private marriage ceremony by Rev. Albaugh in the Methodist Church in Andover on October 8th. The couple was attended by Mrs. Merle Linza of Perry, N. Y., sister of the bride, and Mr. Laroy Abbey of Dansville, N. Y., son of the groom.

The bride was attired in a blue brocaded taffeta, floor length gown made by her niece, Mrs. Russell Bledsoe of Wellsville. She wore a corsage of yellow roses surrounded by mums in Fall colors. The maid-of-honor wore a lavender floor length dress with a corsage of mums.

Immediately following the ceremony the couple was honored at a reception given at the Andover Grange Hall, decorated in a Fall motif, and attended by approximately 60 friends and relatives. A three-tiered wedding cake was made and served by Mrs. Paul Briggs, daughter-in-law of the bride. Also serving in the reception line was Mrs. Russell Bledsoe, Mrs. Aaron Foster of Elm Valley sister of the bride and Mrs. Phyllis Miller of Oramel, daughter of the groom. Musical entertainment was furnished by Mr. Paul Briggs of Andover, son of the bride.

Mr. and Mrs. Abbey will make their home at Dogwood Mobile Park in Bushnell, Florida.

Appreciation

I wish to thank my friends for the visitations, cards, gifts and other remembrances I received while I was in the hospital and since I returned home.

Lee Ryan Reports From Allegany County Legislature

My article this week deals with the Allegany-Steuben Solid Waste Comprehensive Study. I think that it is safe to assume that the people of Allegany and Steuben Counties want a clean and healthy environment for themselves and their children. It is also fair to assume that this should be accomplished at a cost that we can afford.

You probably remember the old open dumps prior to 1969 and even today, there are dumps operating in violation of the State sanitary code. Anyway, this was the reason for the legislative boards of both counties to petition the State for this study. Funding would be provided by the State if both counties performed the study jointly.

As chairman of the Solid Waste Study Committee, I learned in two years collection, treatment and disposal of solid waste methods from municipalities all over the United States. Our committee was composed of engineers, mayors of cities and villages of both counties, both county agricultural agents, representatives from environmental groups, a representative from Air Preheater in Wellsville and other people from different organizations that were very concerned with the environment.

The committee worked with the engineering firm of Day and Zimmerman, with Mr. Dick Daniel as project engineer. The state was represented by Allan Raymond and Gordon Eastwood of the Department of Environmental Conservation.

The committee members demanded to know why recycling was not practical, so our engineer Mr. Daniel, made a trip to Ohio to visit the Black Clawson operation billed as the latest thing in recycling. His findings and our own symposium held at Painted Post in March of 1972 with representatives from all major concerns proved to our committee that recycling on a large scale is still:

1. In the experimental stage and the economics are not proven
2. Federal funds are not likely to be available for some time.
3. The population of the two

counties would not warrant an automated plant of the Black Clawson type.

4. The markets for recycled material in Western New York are not good enough to sustain a municipal operation.

Separation in the home with subsequent collection and delivery under supervision to a central point is the best approach to implementing a recycle program in our area at the present time.

Incineration reduces the volume of waste, but some landfill area is still required to dispose of the residues. Incineration requires a very high initial cost for the equipment, and even under present regulations incineration must include complex and costly controls in order to avoid contributing to the air pollution problem. The study showed that generally incineration costs have been estimated to range upward from \$5 to \$10 per ton, depending upon the type of equipment and capacity of the incinerator.

Although the master plan recommends that all solid waste be sent to landfill, regional incineration may be adopted as an alternate in certain areas.

Treatment of wastes by shredding or compacting were discussed in the study. They are worth the cost for crowded areas short of landfill space but are an unnecessary extravagance for sparsely populated regions.

Another of the components recommended in the master plan was the use of containers or what we refer to as a "Clean and Green" system. In this method we would distribute boxes of four to six cubic yard capacity in the rural areas. The containers would be located on paved public road right of way so that 50% of all rural households are within four miles of a site. The containers would be serviced by a truck equipped with hoisting arms that can lift them over the truck and dump them into the truck body. At the present time we are initiating a plan for a pilot project with "Clean and Green."

Next week — more on Solid Waste.

NOTICE!

Pursuant to an Order of the Public Service Commission, we are filing tariff provisions requiring the underground installation of telephone distribution facilities in residential subdivisions containing five or more units, or to multiple occupancy dwellings containing four or more units. Under certain circumstances, the company may request a deposit for a portion of the cost of the facilities. Copies of the tariff provisions are on file at the Alfred business Office.
