**Andover Lions Club
Hearing Screening Clinic
May 4th**

On May 4, the Andover Lions held a hearing screening clinic for preschool children and any other interested persons. A mobile unit from the Al Sigi Center for Rehabilitation, Hearing & Speech Center, Rochester, New York, was hired for screening, with two assistants to operate the equipment.

The cost for services of this unit was \$201.25. The Lions processed eighty-seven children and adults for the day. People attending from Greenwood (25), Bolivar (11), Wellsville (1), and Andover (60). Total Lion man hours for the project was (50 hours).

**Flood Insurance
Workshop Planned**

Dear Taxpayer:
The Allegany County Department of Planning and the Southern Tier West Regional Planning and Development Board cordially invites you to a workshop on Flood Insurance to be held on May 23, 1974 at 7:30 p.m. in the Courthouse (Court Room), Belmont, N. Y.

As a result of the June 1972 flood disasters it became clearly evident that severe damages can be incurred from not only "spot flooding" but on a more broad

basis as well. The result was communities throughout the United States taking a closer look at the federally subsidized National Flood Insurance Program (Act of 1968). This increased awareness has led to various changes in Federal and State legislation, as well as administration of this Program.

It is because of these changes; the confusion in local, State and Federal policies; and the deadlines for emergency funding that we have felt it imperative to conduct this Workshop. We are hoping that a complete program delivery and a sensible question and answer period will provide a comprehensive understanding of flood insurance. This will be accomplished by several agencies presenting their expertise of various Flood Insurance Program phases.

This Workshop is primarily aimed at community leaders and government officials. This is so because as representatives of the public at large they may understand what makes their community eligible to receive flood insurance coverage. The Workshop is also open to the public for their information as well.

Presently twenty-two (22) municipalities in Allegany County have been designated as flood prone. As this designation will have a direct affect upon each municipality's later emergency funding status we urge your attendance. If you are not able to attend please send a

representative.
Thank you for your interest in this Workshop.

Sincerely,
ROBERT A. McNARY
County Planner
