

LEST WE FORGET — THE BIG LIE !!!

There isn't a month that goes by without some Politician or prominent Businessman, or Executive making a public statement that we should have gun registration in this country — or less outlaw guns completely! And, with this constant repetition, by so-called intelligent people, more and more people — who can't think for themselves — agree with them.

Why do these people preach gun registration, gun control or abolishment of the "right to bear arms" guaranteed us under the Constitution of the United States of America?

Some of their claims are that it will cut down on the crime rise that is sweeping across the country. Yet, in the States where gun control has been enacted, the crime rate has risen almost 65%. Is this a valid reason then — when statistics and facts belie their rash promises?

Is it possible that Communists could be behind a lot of this "hog-wash" propaganda?

Let's take a look at an article that "has been making the rounds" — and then do some serious thinking about the whole deal.

In May of 1919 at Dusseldorf, Germany, the Allied Forces obtained a copy of some of the "Communist Rules of Revolution." Nearly 50 years later, the Reds are still following them. After reading the list, stop after each item and think about the present day situation where you live — and all around our nation. We quote from the Red Rules:

A. Corrupt the young; get them away from religion. Get them interested in sex. Make them superficial; destroy their ruggedness.

B. Get control of all means of publicity, thereby:

1. Get people's minds off their government by focusing their attention on athletics, sexy books and plays and other trivialities.

2. Divide the people into hostile groups by constantly harping on controversial matters of no importance.

3. Destroy the people's faith in their natural leaders by holding the latter up to contempt, ridicule and disgrace.

4. Always preach true democracy, but seize power as fast and ruthlessly as possible.

5. By encouraging government extravagance, destroy its credit, produce fear of inflation with rising prices and general discontent.

6. Incite unnecessary strikes in vital industries, encourage civil disorders and foster a lenient and soft attitude on the part of government toward such disorders.

7. By specious argument cause the breakdown of the old moral virtues, honesty, sobriety, self restraint, faith in the pledged word, ruggedness.

C. Cause the registration of all firearms on some pretext, with a view to confiscating them and leaving the population helpless.

This is quite a list isn't it? Now, stop and think — how many of these rules are being carried out in this nation today? I don't see how any thinking person can truthfully say that the Communists do not have any part in the chaos that is upsetting our nation. Or is it just one big coincidence?"

These are the things that happened in Russia — and every other Country that has been taken over by the Communists and Dictators. How else could five to seven percent of the leaders in Russia control the 93-95% of the rest of the populace? After firearms registration and confiscation — the people no longer have any effective means of resisting the tyranny imposed by their diabolical leaders. And, who in almost every country have carried out purges by killing hundreds of thousands — and even millions of humans — that have tried to question their authority.

Do you think that it couldn't happen here? — Brother — just scan thru the pages of history — and see how many civilizations fell thru their own degeneration, decadency, corruption, and loss of moral virtues!
