Grocery Gems & Goodies

by Phil Fitch

The slight trickle of canning supplies that started last week has stopped completely — and we can't predict when any more will be available.

Fresh vegetables, especially California Broccoli, and potatoes continue to be the best buys in the produce line but, we are unable to predict how long this trend will last so — enjoy them now at low prices.

In the meat line, beef prices are still low with hamburger in bulk packages being an extra special feature along with chuck roasts. Beltsville type (small turkeys) are also on the market at a low price that would really pay for the thrifty shopper to take advantage of for the Thanksgiving & Christmas Holidays.
