### ACTIVE CHRISTIANITY

The great holy day of Easter is swiftly approaching, as the beautiful prayerful and sacrificial season of Lent is hearing its end. Lent had been intended as a serious season of meditation, reflection and deep thought. And what has Lent taught us? Numerous lessons! Christ came to obediently live the will of His Father, to suffer, die and rise for us, so that we may have life to the fullest.

By work, example, and word Our Saviour came to teach us that religion is a mutual, two-sided, unbroken but demanding rational reality of give and take. 1. God gives and we take and 2. we must give and He'll accept.

Faith, hope, charity, justice, the foundations of Christianity, are deep, solid, demanding, active virtues for daily living. Our Redeemer did His share for us and likewise we must do our fair share.

Christianity is a religion of logical, reason-filled, thought-out action! Hence it is constructive, and positive! Therefore, it demands we do good to and for others, for if we do good to others, then we do it to Christ Himself (Mt. 25). We must be involved followers with reflective action. We must think and do good to improve ourselves, our families, parish, school, town, community, our part of the world.

Some of us dream of doing great things somewhere in the world but too often some of us forget we are a part of the world here... It is here, in this small segment of the big world, that we live, that we pray, play, work, study, and have our being. Hence, we, as His true followers, must become actively and reflectively involved in our section of the total world, this is what He taught: constructive action for self-improvement and betterment of others in our section of the universe. If we seriously try actively and constructively, to better our part of the whole world, then the world will be that much better, because we are in it and doing our fair share.

Every one of us, young and old, male and female, adds positively or negatively to our section of the world. Everyone of us can help to make this a better world because we are a part of it here and now. As His real, devoted disciples, we must be a part of the solutions of the world's problems. If we do not try to improve ourselves and others around us, then we just add to the big problem. Rather than being a part of the problem let us be a part of the solution of problems that face us here, in this part of the world. God Bless us one and all!

## Are Getting A Refund!

Many taxpayers this year will be delighted by the fact that the present withholding structure is providing a greater number of tax refunds.

To most, these refunds will be found money — unanticipated cash — and a welcome source of extra funds.

Don't let it slip through your fingers. If you're fortunate enough to be entitled to a tax refund this year — save it, at least some of it, for the future.

And "The Citz" is the place to save. Sort of an investment in the future. After all, Uncle Sam invests your taxes in many things. Why not invest your refund in yourself?

The most bank for your money.
