MEN—WOMEN

How to get up to 75% of college tuition paid for.

Last year, over 90,000 young men and women earned college credits while serving in the Army. Now, over 1000 colleges and the Army have developed a plan that will make college a reality for even more young people.

It's called Project Ahead and it's a way for qualified young people to select the participating college they want to graduate from before they start their enlistment.

The best part is they'll take courses taught by accredited colleges right on post, with the Army paying up to 75% of the tuition.

Then, after the enlistment's over, the G.I. Bill offers further financial assistance.
