Editorial
 by Kal Shaw

Now that summer is almost upon us, most of you students are thinking about taking on a job for the summer. I've listened to a lot of students complain and gripe that they cannot find a job, but have you looked enough. You can't expect to go out and get a job on your first day out. You've got to try and try many times usually before you can find a job. If you don't find one immediately, don't get discouraged. Getting mad and all hyper won't help solve your're problem.

Have your parents look around for open jobs for you, meanwhile have some of your parent's friends and your relatives looking. With that many people looking for a job you're bound to come up with one. Don't sit home on your duff while all of these people are keeping an eye but, you've got to do your bit too. Put an ad in the local newspaper or Pennysaver, leave your name and phone number on bulletin boards in stores, apply at many stores and leave your name and phone number.

I guarantee that if you do these things and more, that you'll find a job for this summer. Don't give up trying because the first few said no; stick with it and you'll make out fine. Good luck and keep trying.
