Where the job still means Adventure

There comes a time during that senior year when you start doing some pretty heavy thinking about where you're headed.

School has been a long tough haul and now there are a lot of questions about your future. And the Navy's Nuclear Power Program is one of the most advanced techniques in the Nuclear Field. The Navy's Nuclear Program offers all this plus a chance to see the world.

We won't promise that it will be easy, but it won't be dull. You'll travel. You'll grow. You'll lead. And be trained in a field of the future.

Call our toll free number, 800-841-8000. Learn more about the Navy Where The Job Still Means Adventure.

We'll invest in your future to better ours

Like all first-rate talents, the United States Navy is short of the men and women who represent it. So we're ready to give a little stock in you if you can hold the grade. Through our Naval Reserve Officers Training Corps (NROTC) program you can now get a four-year college education, your choice of service, and a leading salary and benefits package. And that's just the beginning. You'll be trained in the most advanced techniques in the Nuclear Field. You'll travel. You'll grow. You'll lead. And be trained in a field of the future.

The Navy's NROTC Program
